

CANDIDATE INFORMATION

2022 SCAPHON Elections

BOARD POSITION:
Quarterly Program Chair

Name: Nari Muci, MSN, CPNP-BC, CPN, CPHON

Current Work Position: Inpatient Oncology Nurse Practitioners at CHLA

Educational Background:

BSN, University of Central Florida, Orlando, FL, 2007

MSN, University of Phoenix, Miami, FL, 2013

Post Masters Certificate in Child Health Nursing, Florida International University, Miami, FL, 2015

Certification(s):

CPNP-BC

CPN

CPHON

Past Participation in APHON/SCAPHON:

I was always active in my local South Florida APHON chapter when I lived in Miami, FL from 2007-2018. During those years, I became a member of APHON and attended various conferences (even presented at home too). Since moving to California in 2018, I have been a SCAPHON member and attended various speaker programs and the 2019 virtual SCAPHON conference.

Experiences/Responsibilities Contributing to Qualifications for Office:

I think I would be a great candidate for this position because within my 15 years of Pediatric Oncology experience, I worked in the pharma industry for 2 of them. From 2018-2020, I worked as a Clinical Oncology Specialist (COS) at Amgen. I provided clinical expertise on an immunotherapy called Blinatumomab to hospitals in the Southern California region. Part of my role as a COS was organizing educational dinner programs to medical professionals. I always enjoyed these programs because it was a great way to network with nurses, doctors, and pharmacists outside of the hospital. It was nice to see dedicated individuals who wanted to take time out of their schedule to learn; not only to increase their personal knowledge, but to also give their patients the best care possible. This role has given me the experience in fully understanding what it takes to coordinate the dinner programs; including speaker interaction/scheduling and managing the restaurant's needs.

State Why You Wish to Run for Office:

I would like to run for office because I want to give back to APHON for all it has provided me in my last 15 years in peds hem/onc. I think it would be a great way to use my experience in the pharma industry so that we can have successful dinner programs and ensure the best experience for our members and speakers.
