

## CANDIDATE INFORMATION

### 2024 SCAPHON Elections

**BOARD POSITION:**  
**Treasurer**

**Name:** Kathryn Duvall, MSN, RN, CPON, CCRP

**Current Work Position:** Nurse Manager, Clinical Research  
CHOC Children's Hospital, Orange County

**Educational Background:**

MSN: West Texas A & M, Canyon Texas; 2019

BSN: California State University, Long Beach; 1984

**Certification(s):**

CPON since 1999

CCRP since 2008

**Past Participation in APHON/SCAPHON:**

APHON member since 1999

SCAPHON member since 2000

SCAPHON Board Appointed Positions, including current SCOOP Editor since 2016. Previously served an additional 8 years on various SCAPHON committees.

**Experiences/Responsibilities Contributing to Qualifications for Office:**

With extensive experience as a Nurse Manager, I have developed a robust skill set in financial management, budgeting, and fiscal oversight, which I believe make me a highly qualified candidate for this role. Over the course of my career, I have successfully managed complex hospital and clinical trial budgets, demonstrating a strong ability to oversee financial operations and ensure efficient allocation of resources. My key fiscal responsibilities have included: Budget Development and Management, Financial Reporting, Resource Allocation and Audit/Compliance.

**State Why You Wish to Run for Office:**

As a pediatric oncology nurse for 30 years and a SCAPHON member throughout most of that time, I am committed to improving the treatment and care of our pediatric hematology/oncology patients and their families. I truly believe that SCAPHON's mission to provide quality professional education, networking opportunities, and collaboration for our dedicated nurses leads to improved care and treatment for our special kiddos.

While I have been a long-time appointed member of the SCAPHON Board as the SCOOP Editor, I am excited about the opportunity to further contribute to SCAPHON by ensuring its financial health and sustainability as Treasurer. My experience as a Nurse Manager in clinical research, where I have successfully managed complex hospital and clinical trial budgets, demonstrates my strong ability to oversee financial operations and ensure efficient allocation of resources.
