Christine Yun, MSN, RN, PNP, CPON

SCAPHON MEMBERSHIP

SCAPHON membership is \$30 a year and is not prorated. Membership goes from May 1st to April 30th each year. You must be an active APHON member and live in the Southern California area to be a SCAPHON member. **Membership Benefits:**

- Free Quarterly educational dinners three times a year, earn 1 CEU at each quarterly (\$75.00 value)
- Discount to annual SCAPHON conference
- Eligible to run for SCAPHON elected positions or appointed positions on the SCAPHON board
- Eligible to vote in annual SCAPHON elections

Please renew or join starting on May 1, 2022 by going to the membership tab on the SCAPHON website: www.scaphon.org

COMMUNITY SERVICE PROJECT

Project Hope Alliance is an organization whose goal is to end the cycle of homelessness, one child at a time, by removing the barriers to their basic needs (food, clothing, and transportation). Project HOPE stands for Homeless Outreach Program in Education. The Project Hope Team places full-time case managers in local schools to provide educational support and facilitate connections to needed resources. In addition to school age children, they also provide services to post-school youth in an independent setting.

This year we will be partnering with them to provide needed items from their Amazon Wish list. In addition, we will be collecting shoes of all types and sizes to donate to Shoes4Funds and raise additional money for Project Hope Alliance. They will accept any type (heels to house shoes), any size, and even used shoes, just in time for spring cleaning too! If you will not be attending this year, please pass along your shoes to a friend to bring for you so you can help us to end homelessness.

ACTS Survivorship Program
CHOC Children's

COURSE OBJECTIVES

1. Explore challenges that nurses are currently facing and ways to improve coping.
2. Discuss how new targeted immunotherapies have improved treatment outcomes in pediatric leukemia.
3. Discuss updates to antiemetic guidelines and changes to specialty drug distribution.
4. Discuss what is new in pediatric brain tumors including molecular diagnostics and newer targeted and immune based therapeutics.
5. Describe implications of COVID-19 in the setting of pediatric cancer.
6. Discuss the importance of humor as it relates to pediatric hematology/oncology nursing and its healing power.
7. Describe ways to become an inclusive leader and make a positive impact in healthcare.
8. Discuss common infections and treatment in BMT patients.
9. Review the pathophysiology and treatment approaches for neuroblastoma, particularly MIBG therapy.
10. Discuss new therapies for the treatment of sickle cell disease.
11. Review the evolution of chimeric antigen receptor therapy.
12. Describe the importance of seamless transition from end of therapy to long term follow up.
13. Discuss hematology implications in patients with COVID and MIS-C.
14. Define the progression of generational nursing in pediatric hematology/oncology.
